Lunch room

How to make our lunch room fun and safe.

1. Come in quietly with walking feet.
2. Decide whether you are having cold or hot lunch.
3. If you are having hot lunch line up and be ready to give your number to the cashier. **(Remember Parents: accounts need to have a positive balance for a regular hot lunch. If your student is in the negative we will still offer a cheese sandwich , fruits & vegetables, and a milk.)** After giving your number please walk through the line and grab your meal.
4. Quickly have a seat so you have plenty of time to eat. (Remember we want you to be able to socialize but we also want you to eat a good lunch and get energy for to rest of the day.
5. Once You are done with your lunch raise your hand and we will have you dump your tray and you will be ready for recess or class.

READING CORNER

Tip of the Month: Add a little play practicing. Instead of just reciting the same old story, improvise a little. Don't be afraid to deviate from what's on the page. Incorporate different accents for the characters, add drama with theatrical hand gestures, build anticipation by including pauses, and let the emotions of the register on your face.

Book Recommendations
